The recent developments in aluminium application in the European automotive industry are presented and trends in average and specific use of aluminium in passenger cars is analyzed.

(PDF) Automotive Trends in Aluminium - The European ...

The implementation of Industry 4.0 and smart factory concepts changes the ways of manufacturing and production and requires the combination and interaction of different technologies and systems. The need for rapid implementation is steadily increasing as customers demand individualized products which are only possible if the production unit is smart and flexible.
