History. Early knowledge of agriculture was a collection of experiences verbally transmitted from farmer to farmer. Some of this ancient lore had been preserved in religious commandments, but the traditional sciences rarely dealt with a subject seemingly considered so commonplace. Although much was written about agriculture during the Middle Ages, the agricultural sciences did not then gain a ...

agricultural sciences | Definition, History, Disciplines ...

Agriculture, agricultural science, and agronomy. The three terms are often confused. However, they cover different concepts: Agriculture is the set of activities that transform the environment for the production of animals and plants for human use. Agriculture concerns techniques, including the application of agronomic research.

Agricultural science - Wikipedia

Practical work facilitates the process of acquisition of basic knowledge and practical skills that prepare students for occupation in Agriculture. The West African Examination Council's policy with respect to Science Subjects stipulates that practical work should form the basis of teaching their syllabus (WAEC Syllabus, 2007-2009).
