Cardiac Cycle Worksheets - Lesson Worksheets

The period of time that begins with contraction of the atria and ends with ventricular relaxation is known as the cardiac cycle . The period of contraction that the heart undergoes while it pumps blood into circulation is called systole. The period of relaxation that occurs as the chambers fill with blood is called diastole. Both the atria and ventricles undergo systole and diastole, and it is essential that these components be carefully regulated and coordinated to ensure blood is pumped
