Civil engineering - AccessScience from McGraw-Hill Education

Civil engineering has registered the lowest placement rate of a mere 38% between 2012-13 and 2015-16 among six engineering streams approved

by the All India Council for Technical Education (AICTE). At a time when the construction sector is one of the fastest growing, this apparent lack of demand for civil engineers comes as quite a surprise. Data from the AICTE shows that over this period ...

Why it's not a good idea to be a civil engineer in India ...

Civil engineering is a professional engineering discipline that deals with the design, construction, and maintenance of the physical and naturally built environment, including public works such as roads, bridges, canals, dams, airports, sewerage systems, pipelines, structural components of buildings, and railways.. Civil engineering is traditionally broken into a number of sub-disciplines. It ...
