This guide helps the planner determine their operating regions based on considerations of an affected region, identifies the many sources of public sector information that are available for the planner to help develop the plan and to provide alerts and notices, and the process that a company can follow to make sure all relevant aspects of the business are included in the development of the plan.

COVID-19 Resources: A Guide for Sourcing, Procurement

The first step in the eSourcing process is identifying the need for goods and services. Various strategies are then implemented to find the suppliers that best meet a company's needs. A contract is negotiated with the supplier that's favorable both logistically and financially for the company.

eSourcing vs. eProcurement: What are the differences?

Delta eSourcing offers an end-to-end web-based service for predominantly public sector buyers (as well as the private sector) to manage tenders, suppliers and contracts in one simple solution. In this guide, we explain the important role eProcurement can play in the procurement software process, the numerous benefits it can bring for your organisation, and how Delta's eProcurement software can support your organisation's procurement strategy going forward.
