If you met a Neanderthal, the first thing you might notice is that your hominin cousin was a bit shorter than your average human. Neanderthals were both shorter and thicker than we are, so while you might beat them on the basketball court, they could probably out-arm-wrestle you. The next thing you'd probably notice is a broad and flaring nose with large nostrils.

Homosapien was a super-sad event upon its release in 1981. Buzzcocks fans were aware that the songs were originally intended for the band's fourth LP (even though some, such as the underground hit title track, had been composed before the band began) -- a new work that was set to continue the intriguing, strange, yet powerful and incredible direction the group had taken on side two of late ...
