Honda Vtec Engines

VTEC (Variable Valve Timing & Lift Electronic Control) is a system developed by Honda to improve the volumetric efficiency of a four-stroke internal combustion engine, resulting in higher performance at high RPM, and lower fuel consumption at low RPM. The VTEC system uses two (or occasionally three) camshaft profiles and hydraulically selects between profiles.

VTEC - Wikipedia

5. VTEC TURBO (2017 - Present Honda Civic Type R) With the VTEC system being blended with Variable Cylinder Management technology, it was only a matter of time before VTEC was paired with a turbocharged engine for the first time, with the Civic Type R leading the way when it was introduced in 2017.
