# File Type PDF Oracle Database

Application Clusters (RAC) is an option to the award-winning Oracle Database Enterprise Edition.

Oracle RAC is a cluster database with a shared cache architecture that overcomes the limitations of traditional shared-nothing and shared-disk approaches to provide highly scalable and available database solutions for all your business applications.

## **Oracle Real Application Clusters**

With Oracle Database 11g R2, the Grid Infrastructure software has installation for Clusterware and ASM. Clusterware and ASM should be installed in a different Oracle home directory than the database. The network configurations are key because we need a public IP and a private IP, for the interconnect and the virtual IP (VIP).
