The Rational Peasant The Political

In The Rational Peasant, Popkin attempts to discredit the common assumption of moral economy and impose his own idea of political economy. Moral economists believe that peasant protest is a result of falling below a subsistence level (short-run security), or the loss of traditional institutions that "provided for peasant welfare (long-term security)" which often result as the imposition of a capitalist economy (5).

The Rational Peasant: The Political Economy of Rural ...

The Rational Peasant: The Political Economy of Rural Society in Vietnam is a non-fiction book by University of California, San Diego political scientist Samuel L. Popkin. Originally conceived to be a reflection on the Vietnam Revolution, the book introduces the term "political economy" as a new theory of peasant behavior. Popkin surveys the precolonial, colonial, and revolutionary history of Vietnam seeking to understand the impact of outside shocks on peasant communities, and ultimately ...

The Rational Peasant: The Political Economy of Rural ...

Popkin develops a model of rational peasant behavior and shows how village procedures result from the self-interested interactions of peasants. This political economy view of peasant behavior stands in contrast to the model of a distinctive peasant moral economy in which the village community is primarily responsible for ensuring the welfare of its members.

(PDF) The Rational Peasant: The Political Economy of Rural ...

The level of selective incentives in any peasant upheaval is a function of demand and supply considerations. Peasants demand selective incentives. The suppliers include one or more dissident peasant organizations, the authorities, and the allies of both. A political struggle ensues as the suppliers compete and attempt to monopolize the market.

The Political Odyssey of an Intellectual Construct ...

Samuel L. Popkin builds on Olson's argument in The Rational Peasant: The Political Economy of Rural Society in Vietnam. His theory is based on the figure of a hyper rational peasant that bases his decision to join (or not) a rebellion uniquely on a cost-benefit analysis. This formalist view of the collective action problem stresses the ...

In this seminar, we will explore political action by the largest group of ordinary people in the world -- peasants. Substantively, our topics will range from "everyday forms of resistance," to nonviolent collective action to outright defiance and insurgency. We will consider work both in the moral economy and the choice-theoretic traditions.

Kevin J. O'Brien - Political Science

"Rational Peasant" Economics In economic analysis of peasant households, Michael Lipton's "Theory of the Optimizing Peasant" (1968) was a seminal paper. From this beginning, economists have, using different assumptions, developed several models to explain the behavior of farm households.

ences. Thus, in the political economy view, peasants are not strongly committed to the status quo. Peasants understand the logic of invest-ment and accepting risk, and they may be willing to promote change in the social and political order to increase their own welfare. It is con-ceivable that peasants support the institutional changes required to re-
